---

Senior Technical Lead with 18+ years of experience in Digital Transformation and Legacy Modernization. Proven track record of delivering high-scale, mission-critical systems for the UK Public Sector. Expert in bridging the gap between complex business requirements and scalable Microservices Architecture.

Core Strengths

- Leadership: Mentoring, Sprint Planning, Stakeholder Management, Technical Roadmap Design.
- Cloud & Infrastructure: AWS (Serverless & Containerized), Terraform (IaC), Kubernetes, Docker.
- Security & Compliance: SC Cleared, OWASP Top 10, Federated Identity (OIDC/SAML), GDS Standards.
- Architecture & Design: Microservices, Event-Driven Architecture (Kafka), SOLID Principles, Design Patterns
- Full-stack development (Python, Node.js, React, Java)

Educational Qualifications

AWS Certified Developer – Associate.	Validation Number: 1d5be589c4b841e198e63a237b5a7f4a	
M.Sc. in Enterprise Systems Development	**Brunel University** (London, U.K.)	Mar 2008
B.Sc. in Information Technology	**University of Mumbai**	Oct 2005

Technical Skills

Languages: Python, JavaScript, TypeScript,
Frontend: NodeJS, React, Vue.js, Next,js, Express, Tailwind, Webpack
Backend & DB: Django, Flask, PostgreSQL, MYSQL, MongoDB, Redis
DevOps & Cloud: AWS (EC2, Lambda, RDS, S3), Kubernetes, Docker, Terraform, Jenkins, Kafka
Testing: TDD/BDD, PyTest, Selenium, Jasmine, Karma, Mocha, Chai, Zombie.js
Other Expertise: JAVA, PHP, Symfony, Laravel, Spring, PHPUnit

Key Projects

A selection of mission-critical and public-facing projects from my professional portfolio

- Home Office
  - ✈️ General Aviation Information Tool – Architected a high-throughput data ingestion engine using Python and AWS Lambda, enabling the real-time processing of 1M+ records per hour and reducing data latency by 40%.
  - 🧪 Chemical Reporting System – Worked on application to allow retailers to report suspicious purchases.
  - 🚚 Carrier Reporting Tool – Enabled communication with carriers secure and up to 60% faster with automated pipelines.
  - 📊 Business Data Manager – Acts as a single truth for data source for various different types of data and also gives control to manage it.
- 🗺️ OS Maps - https://shop.ordnancesurvey.co.uk/custom-made/
- 💸 Elevate – Sunny - https://sunny.co.uk/

Professional Career Details:

Crown Commercial Services – *London, UK Feb 2026 – Current**
Lead Developer / Senior Python Developer

Technologies: AWS, Python, Flask, Node.js, Typescript, React, PostgreSQL, CI/CD (Jenkins), RESTful APIs, Mocha, JIRA, Git, SonarQube, VirtualBox, Artifactory, TDD, BDD, GDS Delivery Framework

Came in to help with rebranding of CCS Crown Commercial Services to Government Commercial Agency. This task involves making deep changes into a huge codebase spanning up to 30 different repositories (Projects). This is the backbone of all the government frameworks available for suppliers.

UK Home Office – *London, UK Nov 2016 – Nov 2025*
Lead Developer / Senior Software Engineer

Technologies: AWS, Java, Spring, Python, Node.js, Typescript, React, PostgreSQL, PHP, Symfony, Drupal, Docker, Kubernetes, CI/CD (Drone, Jenkins), RESTful APIs, Mocha, JIRA, Git, SonarQube, VirtualBox, Sysdig, Kibana, Quay, Artifactory, Selenium, TDD, BDD, GDS Delivery Framework, Keycloak, sEntry, cloudWatch

- **Senior Full-Stack Delivery:** Spearheaded the end-to-end development of mission-critical applications using **Python** and **JavaScript (Node.js/React)**, delivering robust front-to-back-end solutions in alignment with the **GDS Delivery Framework**.
- **Microservices Architecture:** Designed and deployed highly scalable **microservices** to process national flight and crime data, managing multi-million record monthly volumes while ensuring strict adherence to **SOLID principles**.
- **CI/CD & DevOps Excellence:** Engineered and enhanced automated **CI/CD pipelines** (Drone, Jenkins) and **containerization** workflows (Docker, Kubernetes), reducing release cycles from weeks to days and ensuring rapid, reliable delivery.
- **Legacy Modernization & Polyglot Adaptability:** Modernized complex legacy systems, cutting maintenance overhead by 40%; demonstrated a **proactive learning mindset** by successfully pivoting across diverse tech stacks, including a readiness to deliver on **.NET projects** as required.
- **Secure Federated Identity:** Implemented secure data pipelines and RESTful APIs with an emphasis on robust authentication, providing a foundation for **federated identity and SSO** implementations using KeyCloak.
- **Technical Leadership:** Directed sprint planning and technical delivery for a cross-functional team of +10 engineers, ensuring high-quality version control and collaboration through **GitHub**.
- **Monitoring:** Using AWS Lambda and Python, leveraging CloudWatch and ELK stack for full-stack observability, reducing incident resolution time by 30%.

Elevate Credit International Ltd – *London, UK Mar 2016 – Sep 2016*
Senior PHP Developer

Technologies: PHP, Zend Framework 1, Silex 1.2, MySQL, AJAX, Twig, PHP Templates, JavaScript, Sass, Grunt, Node.js, NPM, NVM, TDD, PHPUnit, Target Process, SVN, RESTful APIs, XML, JSON

Key Contributions:

- Developed and maintained backend services using **Zend Framework** and **Silex**, integrating with a responsive front-end built on **Twig**, **JavaScript**, and **Grunt-based** tooling
- Led sprint-focused development to meet agile delivery goals, improving **code quality** through refactoring and automated unit testing (**PHPUnit**)
- Implemented **RESTful web services** and automated **page-specific CSS/JS bundling** using Grunt, enhancing scalability and page load performance
- Contributed to the development of sunny.co.uk, ensuring the platform remained modern, robust, and agile-friendly with a **24-column grid** foundation.

Prior Professional Experience:

- *Senior PHP Developer at* **Salmon Ltd** - *Nov 2015 – Mar 2016.*
- *Senior Symfony Developer at* **Encompass Digital Media** - *Sep 2015 – Nov 2015.*
- *Senior PHP Developer at* **Salmon Ltd** - *Aug 2015 – Sep 2015.*
- *Lead PHP Developer at* **Ordnance Survey** - *Dec 2014 – Jul 2015.*
- Lead Symfony Developer at **Newspress Ltd** - *Mar 2014 – Nov 2014.*
- Symfony Developer at **Sport Lobster Ltd** - *Jan 2014 – Mar 2014.*
- Symphony2 Developer at **Holler Digital Ltd** - *Nov 2013 – Dec 2013.*
- Senior PHP Developer at **The App Garden Ltd** - *Aug 2013 – Nov 2013.*
- PHP Developer (Symfony) at **Arqiva Ltd** - *May 2013 – Aug 2013.*
- Freelancer at **Freelancer.com** for variety of clients - *Mar 2012 – Apr 2013.*
- PHP Developer at **Hospedia Ltd** - *Feb 2009 – May 2013.*
- PHP Developer at **Premier Telesolutions** - *Sep 2007 – Jan 2009.*
- PHP and Flash Content Developer at **Brunel University** - *Oct 2006 – Mar 2007.*
- Software Engineer at **Vaishnav Developers** - *Feb 2006 – Aug 2006.*
- Software Engineer at **Shaadi.com** - *Aug 2005 – Feb 2006.*
